

PIBC Vancouver Island South Chapter presents....

Understanding Earthquakes: A Workshop for Planners

We are pleased to announce that we are teaming up with Natural Resources Canada to host another educational workshop on understanding earthquake risks and hazards in Canada. The workshop will include:

- A tour of the Pacific Geoscience Centre;
- Overview of the Geological Survey of Canada's earthquake research;
- Information on earthquake history and hazards;
- Introduction to the earthquake early warning system; and,
- Earthquake risk data for planners.

Join us to learn how earthquake science and risk data can support safer, more informed planning decisions.
