

Project Manager, Parks Projects

The City of Port Moody has an exciting opportunity for a Project Manager, Parks Projects to be responsible for professional park planning and the management of strategic projects related to planning and designs (or redevelopment) of parks and other greenspaces, including the full spectrum of project management duties.

Reporting to the Manager, Project Delivery, the Project Manager, Parks Projects will help to guide the City's future long term direction on key parks assets such as Rocky Point Park, Old Orchard Park, and the City's extensive network of trails. This is a temporary, full-time position anticipated to last for 18 months. It works closely with the Director of Environment & Parks and staff in this division for project input and direction, and will interface with internal and external stakeholders and lead public and stakeholder consultation.

The work involves coordinating a wide range of park planning projects; developing long and short range planning strategies for park system planning projects and individual park master plans; preparing long-term plan proposals, researching, analyzing and interpreting information and providing recommendations and advice; preparing and monitoring budgets; and representing parks to a wide range of groups in community engagement and consulting. The Project Manager will ensure project design is in compliance with plans and specifications and will provide required oversight during construction to resolve issues.

This position will suit a candidate with a university degree in Landscape Architecture, Planning or related discipline, and membership or eligibility for membership in the Society of Landscape Architects or equivalent. A minimum 5 years of related experience managing a wide range of park, open space and community planning projects, with demonstrated project management experience within a municipal government or consultant firm is required, and formal Project Management training is an asset. The successful candidate will

bring considerable experience and knowledge of principles, practices, methods and techniques of landscape architecture, urban or environmental planning practices and procedures, construction methods and materials, and an understanding of environmental and sustainability principles, combined with knowledge of the methods, techniques, principles and practices applicable to parks system planning projects and programs.

Please note that employment with the City of Port Moody is subject to the receipt of a satisfactory Police Information Check and a satisfactory Driver's Abstract.

The City of Port Moody strives to be an employer of choice and offers an excellent benefits package as well as professional development opportunities.
